WEDNESDAY, SEPTEMBER 7. 1737.

No. 687.

Yesterday arrived a Mail from Holland.

THE Letters from Petersburg, which are of the 11th ult. O. S. say, that General Lascey having clear'd the difficult Pass of the Dead Sea, continued his March, burning and destroying all the little Towns and Villages he came to, and defeating several Detachments of Turks and Tartars in his Way to Bazar, where he and Lieutenant General Douglas having cut in Pieces a Body of Turks on the 15th, that had taken Post before that Place, the Town was afterwards forced, every Enemy out to the Sword, and after a general Plunder, the Town, with its Suburbs, was intirely reduced to Ashes. It appears that this was no inconsiderable Place, there being near 10,000 Houses in it, of which above 8000 were of Stone; beside 200 Houses in the Jews Quarter; 27 Warehouses, two Greek Churches, one Armenian, one Synagogue, and 38 Mosques; and in the Suburbs 50 Water Mills.

The Town being situate in such narrow Avenues of the Mountains, that scarce 3 Men cou'd march in Front, and there being moreover a great Want of Forage, the Marshal thought fit to quit those Mountains, and in 5 Days March from the River Karas to the Mouth of that of Sangarski, thro' a populous Country, he reduced above a Thousand little Towns, Villages and Habitations to Ashes, took near 60,000 Head of Cattle, and on the 24th of July O. S. pass'd the River Sangarski, into a Country abounding with Forage, where he propos'd to rest a few Days from the Fatigue of several Skirmishes which he had had with the Turks and Tartars, and then to renew his Operations against them.

There is a Letter from Ratisbon, which mentions Advice said to be brought by another to the Count de Wallis, from the Baron Ghilany, dated the 2d ult. O. S. from Tergovisto. These Advice are too material not to be mentioned, tho' they need to be confirmed before they are credited. The Baron tells the Count, among other Things, that one Janacky Saidshi had brought him the agreeable News, that the Russian Army under Count Munich having attack'd the Turks on the 22d of July O. S. the Turks, whose Army consisted of 160,000 Men, were, after a Battle of three Days, put to the Rout, and retir'd partly into the Town of Bender, and partly under the Cannon of that Place; where the Russians invell'd and intirely defeated them, and took the Town of Bender, the Vizier being retired to Hakefe on the other Side of the Danube.

The Letters from Vienna, which are of the 20th ult. O. S. say, that the Day before the Court received an Express, with News of a very smart Action upon the Save. The Prince of Saxe Hilburghausen having embark'd his Infantry in order to join the Grand Army, while the Horse march'd for the same Purpose by Land, the Turks advanc'd towards that River with a large Body, to cut off those Troops; but the Prince, after having bravely stood their first Attack, oblig'd them to fly, with the Loss of above 3000 Men. The Baron de Gamming, a Captain in the Regiment of Aremburg, arriving at Vienna the same Evening from the Grand Army, 'twas immediately rumour'd, that he was sent from Count Seckendorf, to inform the Emperor, that Count Munich had gain'd a great Victory over the Turks near Bender, and killed above 20,000 of them on the Spot: But of this we must also wait for the Confirmation and Particulars. The Count de Khevenhuller has sent for more Troops to invest and block up the City of Widdin.

The Senate of Venice has received an Express from Vienna with Advice, that the Imperial Ministry have declared, that if the Republick does not join in the War against the Turks, the Emperor will think himself no longer engag'd by his present Alliance with that State.

IRELAND.

Dublin, August 30. Of the eight Men that were in the Copper Mine when the Earth fell in upon them, four were taken up alive, after having re-

mained four Days in the Earth without any thing to live on but a Pound of Candles, and two Lays after two more were found, but so weak, that it was not thought safe to bring them into the Air: They were preserv'd by getting into the Clift of a Rock, on the Top of which another falling, hindered the Earth from closing in upon them, and formed a kind of a Cave. They were at first six together, but the Earth giving way a second time, separated the two latter from the rest. There are an Hundred Men at work, endeavouring to relieve the other two, who are thought to be still alive, their Voice having been sometimes heard.

COUNTRY NEWS.

Gloucester, Aug. 27. Yesterday the four following Malefactors were executed here, viz.

Abraham Wood, and John Wood, Brother by the Father's Side to the aforesaid Abraham (two Gypsies) who were condemn'd for robbing H. Lovell (another Gypsy) on the Highway. They were born in Caermarthen-shire, the former being about 60, and the latter near 40 Years of Age. Abraham said, that he betook himself to that strolling Way of Life at the Age of 12, and could never be perswaded by the Entreaties of his Friends to forsake it. He confest that he had been much addic'ted to drinking, and the Conversation of lewd Women, which he said were his greatest Crimes. He left behind him a Paper in Writing, describing the infamous Course of Life those Strollers lead, who stile themselves Egyptians; of which the following is an Extract. In one Gang belonging to the Lovells and the Bozells (he says) there are no less than 30 Persons, who when they meet together, strike out some one Way and some another, to espy out Gentlemen and Farmers Flocks of Sheep, and in the Night-Time re-assemble and steal the best they can find, and what Quantity they please, by catching them with a Dog; and when they come to a Place convenient, skin and draw them, and bury the Skins and Guts, or throw 'em into some Pool of Water, and sink 'em with Stones; after which they carry the Carcasses to some secret Place 6 or 7 Miles distant from that where they stole them, and tear up Hedges, or get any Thing else they can lay their Hands on, and make a Fire, and roast and boil till they have devoured what they have: Often in the mean Time some of them strike out and steal a Horse or Two, and others upon the Highway. That about 6 Years ago Henry Lovell, jun. and Thomas Lovell his Brother, with one Barnaby and Jeffery, Confederates with their Gang, stole 3 Horses from near Tamworth, one of which was a bright Bay crop'd Gelding; and a Hue and Cry being sent out after them, they escap'd by getting into a Wood, and going off by Night. That the Names of the Bozells that belong to the same Gang, are John Bozell the elder and his 4 Sons, viz. Peter, John, George, and William. The said John Bozell's Way of Life chiefly consists in Fortune-telling, and deluding unwary Persons of their Money, under a Pretence that, by giving him such a Sum, they should in such a Place find one considerably larger; by which Means he has brought a great many ignorant People to Ruin. He further says, there is one George Kemp, who very often robs on the Highway; that he is a tall, well-looking Man, and pretends to have a Licence, and sells flower'd Waistcoats; that last Summer he broke open a House at Cely in Glamorganshire, from whence he stole 6 Gold Rings, and got off for Bristol; and that he most commonly has 4 well dress'd Women along with him.

The aforesaid Wood desired the Spectators to take Warning how they lent their Money to Strangers, for he only went to receive his own, and Henry Lovell, an old Gypsy, swore this Robbery against him for it. His last Words were, *Lord have Mercy upon my Soul! I am innocent of what I die for; and it is wilful Murder I declare.*

John Willis, for breaking open the Houses of Matthew Davis, Stay-maker, and William Ellery, Innholder, both of the Parish of St. Philip and Jacob, and stealing from thence divers valuable Goods, particularly from the latter, 1 Silver Tankard, 3 Silver Spoons, &c. The Night before his Execution he confest to the Prosecutor where the Tankard was conceal'd. He was about 23 Years of Age, and born of honest Parents in this County.

John Gibbs, for breaking open two Houses near Bristol, and stealing divers Goods. He declared to the last, that he found the Things in a Bag, in a Hedge in Kingswood, between Bristol and Bath, and that he never stole any Thing in his Life. He was about 60 Years of Age, born in Glamorganshire, and was well known among the Smiths and Farriers of this County and Wilts.

Thomas Rickets, who was to have been executed with them was reprieved the Night before, on Account of his Youth.

Exon, Aug. 26. This Day the 3 following Malefactors were executed at Heavy-Tree, viz.

John

John Price, aged 65, for the Murder of his Wife, in Tiverton, by throwing her out of a Window into the Street, and fracturing her Skull, of which she instantly died. He declared his Innocence as to her Death; but that there had been frequent Quarrels between them, occasioned by his keeping Company with one Mary Skinner. That the Night of his Wife's Misfortune, she was in Liquor, and lock'd him out, which oblig'd him to lay down in his Hay-Loft; and coming to the Door between 2 and 3 o'Clock in the Morning, to his great Surprise he found her dead under the Window. He had lived in Tiverton 36 Years as a Husbandman; his Wife kept the Plough in Bampton-Street.

John Collings, aged 50, for the inhuman Murder of Jane Upcott, a Fish-woman, near Hall-down, by cutting off her Head, which he chopp'd and batter'd till the Brains came out, then ripping open her Body from the Breast to the Navel, taking out her Heart, and sticking it on the Point of his Spar-Hook. Being ask'd why he kill'd her, he said, *He could give no Reason for it, only the Devil was too strong with him; that he was in Flames of Fire.*

Benjamin Baker, for robbing Philip Warry on the Highway, of 1 Guinea and 7 Shillings. He was of St. Austle in Cornwall, aged about 22.

Truly prepared and sold at the Doctor's late Dwelling House, now Mr. DUTTON's in Salisbury Court, Fleet-street.

THIS Medicine restrains in a most surprising Manner, all internal as well as external Hemorrhages, i. e. it infallibly and quickly stops all dangerous Bleedings at the Nose or Gums, spitting or vomiting Blood; a too immoderate Flux of the Hemorrhoids or Menes; bloody Urine or Stools, bleeding of large Wounds, &c. (if used according to the plain Directions given with it) as will appear by the Certificates of several Eminent Physicians, and in the large Account of this Medicine, written by the Doctor himself, and dedicated to the College of Physicians, a little before his Death.

It keeps good for many Years, at Sea or on Shoar, at Home or Abroad, i. e. in all Climates, therefore must be universally Useful.

The Doctor not only obtained his Majesty's Letters Patent for the sole Vending of this most Excellent Medicine; but also a Clause in a late Act of Parliament, exempting this Medicine from the Inspection of the Censors of the College of Physicians, to which all other Medicines are liable.

N. B. Some of the Apothecaries prepare a Styptick from a Prescription of Helvetius, and use it in the Room of Dr. Eaton's; but whoever tries both, will soon be persuaded that Ours exceeds theirs in all Respects, in a most eminent Degree.

ANTI-SYPHILICON.

THE only short and most infallible

Cure in the Universe for the VENEREAL DISEASE, from the slightest Infection to the most extreme and deplorable Degree of it, even when the Blood and Juices are so roughly contaminated with its malignant Virus, and the very Bones are affected with it.

Fresh Infections, call'd CLAPS, with all their attendant Symptoms, tho' ever so severe, are entirely carried off by it in a few Days, and so as effectually to prevent the Blood and Juices from being tainted with any remaining Relics on one Hand, or a venereal Gleet or Weakness to happen on the other.

And the most inveterate Degree of the French Ulcers, attended with Nocturnal Pains, universal Breakings out, and all the other most exasperated Symptoms, are soon overcome by it, and effectually and much more safely cured than by Salivation, Inunction, or any other Method whatever, and in so easy and pleasant a Manner, without impairing Strength, or occasioning any Inconvenience, as to be safe in the only apposite Remedy or true Venereal Antidote in the World; and this some Thousands have to their great Joy experienc'd.

It is pleasant to take, occasions no Sickness or Disorder, nor requires Confinement; but may be taken, and the Cure be accomplish'd, without the Knowledge of the nearest Friend.

Those who suspect they have received an Injury, may, by only a Dose or two of it, be perfectly freed from all Apprehensions; for it suffers no lurking Venom to lie hid in the Body, but wholly extirpates it Root and Branch, in a gentle, easy, and most effectual Manner.

All such likewise as doubt they have some remaining Relics of former Injuries, may by a few Doses of it intirely free themselves from all Suspicion of that Kind; for it admits of no Foulness, Corruption, or Putrefaction whatever, to remain in the Fluids, or to adhere to the Solids; and on that Account, in all scorbutick, scrophulous, and even venereal Eruptions of Foulnesses of the Skin, Glandulous Swellings and Impurities of the Juices, it does more by one Dose, than any other Medicine yet known can by ten.

The Price of this most Noble ANTI-SYPHILICON is but Six Shillings a Pot, which, considering its extraordinary Efficacy, one Pot only being sufficient in most Cases to accomplish the Cure, is not a tenth Part of its Value; and is appointed by the Author to be had only at Mr. RADCLIFFE's Toyshop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready seal'd up with a Book of Instructions, by the Perusal of which, all Persons who were ever affected with any Degree of the Venereal Disease, may perfectly understand their own Condition, and certainly know when, and when not, the Venereal Poison is intirely rooted out of their Bodies.

Note, Ask only for a Six Shilling Pot for the Scurvy.

The GREAT RESTORATIVE,

WHICH speedily and infallibly cures

all HYSTERIC DISEASES, whether Hypochondriack Melancholy in Men, or Vapours in Women, however circumstanc'd, or to what Degree soever advanc'd, or of ever so long standing, so as never to return again; by a pleasant compound Medicament, chymically prepar'd of the choicest Anti-Hystericks in the whole Art of Chymistry.

This Medicine having cured Thousands of Men and Women of Melancholy and Vapours, may be depended on for a perfect Cure; it strikes immediately at the first Cause of this Distemper, and entirely destroys it Root and Branch, rectifies that vitiated Ferment in the Stomach, which is generally the first and chief Cause, and thereby cures Indigestion, purifies the Blood and Spirits, strengthens the Brain and Nerves, cleans the whole Frame, stops Vomiting, clears the Head from confused Thoughts, removes Fears, Sadness, disturb'd Sleep, Twitchings of the Arms or Legs, cures Palpitation, or Trembling of the Heart; and indeed all other the many and various Symptoms that attend this grievous Distemper; for, take away the Cause, and the Effect will cease.
